

## **MIDLOTHIAN MEETING**

Midlothian Friends Meeting (MFM) has had in-person worship at our meetinghouse that is integrated with Zoom. This allows Midlothian Friends to choose whether they want to worship either in the meetinghouse or from Zoom as one unified meeting. Friends in either place are able to see and interact with each other as a cohesive group of Friends.

We have had Friends from Bethesda Meeting in-person and Charlottesville Meeting over zoom visit us on a Sunday to check out our set-up. We welcome any other Friends from other meetings who are interested in what we've done.

The automation that we are using with Zoom in combination is Meeting Owl Pro. We only use one Meeting Owl Pro; but I understand that Multiple meeting Owl Pro's can be paired for larger meetinghouses, and the Meeting Owl Pro(s) can even be hung from the ceiling of a meetinghouse.

If anyone does visit we would of course be happy to demonstrate and answer any questions.
